

Homeopathics

By Tarang Bates

I've just read a rather absurd article, about how science has now proved, that flowers and plants make us happy! Hey, did we really need scientists to tell us this, to believe it? Perhaps now that it is proven, nature will once again become sacred to our society, in it's never ending pursuit of happiness.....ahh - we wish!

It has become a touch fundamentalist, this attitude, that unless there is scientific evidence, there is very little value in something.

Anecdotal evidence, which is basically the stories people speak, about how good they feel, surrounded by plants or how well the herbs or homeopathics worked for them, is not considered of any value, when determining if something "works" by those who believe in the superiority of their opinions, and have a certain amount of power over society.

Scientific evidence is an important and amazing tool. Peoples stories of healing and happiness through homeopathics, plants, energy exchange etc. are equally important and amazing, the value of both need to be kept in perspective. We know, of the truth held in our experiences and stories and are lucky enough to be living in a society that supports us, to have confidence and trust in our intuitive knowledge of well being and right living.

So remember to have many majical moments in the year ahead and beyond.

Silica

This remedy is homeopathically prepared from silicon dioxide, which is one of the most abundant of all the elements in the earths crust. It is found in quartz crystals, emeralds, aquamarine, opal, zircon, sandstone and many other minerals. This is a very useful first aid remedy, as it has the amazing ability to help expel foreign bodies from the tissues. For example, splinters, thorns, shards of glass, gravel and metal. It also assists with

chronic ear infections, tooth abscess, styes and boils. Old scars which become painful and slow healing infections.

Staphisagria

Is derived from the seeds of a herb and is an ancient remedy. Used homeopathically for clean wound made from very sharp implements, for example, razor blades, paper cuts, knife wounds and surgery. Helps healing after having a catheter during surgery, and also with nausea after abdominal operations. Staphysagria, has a reputation for helping people who are hypersensitive to mosquito bites and also for preventing mosquitos from biting.

Nux Vomica

Comes from the poison nut plant, sometimes called Quakers buttons. Used during colds and flu with extreme chilliness, irritability and sensitivity, sometimes nausea and vomiting. I thought it would be appropriate to include Nux Vomica this month, a time of over indulgence on all fronts.

Useful for a hangover from too much alcohol or use of narcotics, waking up with a thick head, feeling fragile with a driving headache, indigestion from over-eating, overwork or prolonged mental and emotional strain. It is one of the remedies used for urinary tract infection (cystitis), which can be caused through over taxing the kidneys with alcohol and drugs.

These and many other remedies are available from Nimbin Homeopathics. Contact Tarang on (02) 6689-1452 or email <tarang.bates@yahoo.com.au>

Talks On the hour we offer a selection of one hour talks on subjects as diverse as animal acupuncture and colour Feng Shui, presented by local practitioners.

Shamanic Journeys A Shamanic journey can take many forms, in simple terms it may be a guided meditation through which you access an altered state of consciousness, through sound, chanting, drumming or movement. This year we are offering Shamanic journeys inside a hand crafted Mongolian yurt every hour on the half hour throughout the day.

Healathon Once you are in the festival you might like to take advantage of the free healings on offer at our Healathon. Created by local therapists for your benefit a range of practitioners offer sessions for free. No need to book, one session per person, per day.

Crystal Singing Bowls Because we feel the power of the crystal singing bowls is so special, we offer a morning meditation every day. Please be on time as sometimes the doors are closed to keep out extraneous noise. If you are new to the bowls you can expect to be very relaxed after listening to them or you may experience something more profound!

Gourmet food This year we welcome new caterers to the festival with quality food and fresh organic espresso coffee to nurture the body, as well as the mind and soul.
